T H E D E S I G N

For most of our clients, A G O is a unique place, one of the most creative and unconventional restaurants in Bucharest. The design and architecture signed by the renowned *Mircea Schlotter*, is a personalized fusion style that combines the Asian visual flavors with the warmth and the chromatic pallet of the French atmosphere. Through unexpected mixtures of colors, artistic influences, textures and styles, the restaurant becomes more of a exhibition where fine art is combined with various and luxurious elements. Decorated with impressive oil paintings and sculptures signed by famous Romanian artists with worldwide recognition, with fresh flower arrangements, art—deco finishes and refined materials, A G O Restaurant stands up to the highest international standards and is greatly appreciated by the customers.
